<b>18:00</b>	<p><b>8. Study Visit: „Depot” History Centre</b></p> <p>The Depot at Grabiszyńska street in Wrocław is a special place. This exceptional building from the end of the 19th century witnessed the city's difficult history. In August 1980, a strike to support the workers of the Coast was initiated in the depot. This is how „Solidarity” was born – a peaceful movement of millions that led to overthrow of the communist dictatorship in Poland. If it is at all possible to „tell a city”, describe its history and culture, there is no better location. The heart of the Depot is the main exhibition „Wrocław 1945-2016,” concerning the post-war history of Wrocław, Lower Silesia and other regions incorporated into Poland as a result of the Second World War.
